A Matter of Balance: Managing Concerns About Falls

Designed to reduce the fear of falling and improve activity levels among community-dwelling older adults. The program enables participants to reduce the fear of falling by learning to view falls as controllable, setting goals for increasing activity levels, making small changes to reduce fall risks at home, and exercise to increase strength and balance.

2 sessions/week for 10 weeks
1 hour sessions

Bingocize

Fall Prevention | Nutrition | Exercise Only

An evidence-based health promotion program that strategically combines the game of bingo and health education. Program goals include helping older adults increase physical activity, improve and/or maintain mobility and independence, learn and use health information focused on falls reduction, nutrition, and other health related behaviors, and socially engage with older adults.

2 sessions/week for 8 weeks
1 hour sessions

Tai Chi for Health

This evidence-based exercise program utilizes Tai Chi's Sun style for its ability to improve relaxation, balance and its ease of use for older adults. Tai Chi for Health has been proven to improve chronic disease symptoms, arthritis, balance, and fall risk.
